3. If the Executive Director or the Executive Director's designee receives information that an applicant for a license listed under subsection 1 of NAC 467.012 or a licensee has been cited, arrested or convicted for domestic violence, regardless of how the information is received, the Executive Director or the Executive Director's designee shall review the information and determine:

2. A party seeking arbitration of a contract must initiate the arbitration process by serving a notice of arbitration to the other party or parties to the agreement by personal service or by certified or registered mail, return receipt requested. After a party provides proof of service of the notice of arbitration to the Commission, the Chair shall, in his or her discretion, appoint a representative of the Commission to conduct the arbitration.

3. The arbitrator may conduct the arbitration in such manner as the arbitrator considers appropriate for a fair and expeditious disposition of the proceeding, in accordance with the following:

(d) The arbitrator may issue a protective order to prevent the disclosure of privileged information, confidential information, trade secrets and other information protected from disclosure to the extent a court could if the controversy were the subject of a civil action in the courts of this State.

7. A party to an arbitral proceeding may be represented by an attorney.

8. An arbitrator acting in that capacity pursuant to this section is immune from civil liability to the same extent as a judge of a court in this State who is acting in a judicial capacity.

Sec. 46. NAC 467.7956 is hereby amended to read as follows:

~~—3.]~~ After the weigh-in of an unarmed combatant competing in a contest or exhibition of mixed martial arts, weight loss in excess of 2 pounds is not permitted.

~~[4.]~~ 3. The weight loss described in subsection ~~[3]~~ 2 must not occur later than 1 hour after the initial weigh-in.

Sec. 47. NAC 467.796 is hereby amended to read as follows:

467.796 1. Each judge of a contest or exhibition of mixed martial arts that is being judged shall score the contest or exhibition and determine the winner through the use of ~~[the following]~~ *a 10-point system. Under this* system:

(a) ~~[The better unarmed combatant of a round receives 10 points and his or her opponent proportionately less.~~

~~—(b) If the round is even,]~~ *If the unarmed combatants have competed for the entire round and there is no difference or advantage between the unarmed combatants,* each unarmed combatant receives 10 points. *This result is referred to as a 10-10 round and is subject to the following principles:*

(1) A score of a 10-10 round should be extremely rare.

(2) A judge shall not score a round as a 10-10 round as an excuse because the judge cannot or will not assess the differences in the round.

(3) It is necessary to have a 10-10 round as a possible score, such as for scoring an incomplete round.

(4) If there is any discernible difference between the two unarmed combatants during the round, a judge shall not score the round as a 10-10 round.

(b) If an unarmed combatant wins the round by a close margin, the winning unarmed combatant receives 10 points, and the losing unarmed combatant receives 9 points. This result is referred to as a 10-9 round and is subject to the following principles:

(1) If a judge determines that an unarmed combatant has landed better strikes or utilized effective grappling during the round, even if by just one technique over the unarmed combatant's opponent, the judge shall score the round as a 10-9 round.

(2) A score of a 10-9 round is the most common score a judge assesses during a bout.

(3) It is imperative that a judge understand that a score of 9 should not be automatically given to the losing unarmed combatant of the round. A judge shall consider whether the losing unarmed combatant:

(I) Engaged in offensive actions during the round;

(II) Competed with the attitude of attempting to win the round; or

(III) Competed with the attitude of attempting just to survive the offensive actions of his or her opponent.

(c) If an unarmed combatant wins the round by a large margin, the winning unarmed combatant receives 10 points, and the losing unarmed combatant receives 8 points. This result is referred to as a 10-8 round and is subject to the following principles:

(1) For a round to be scored as a 10-8 round, the winning unarmed combatant must have:

(I) Dominated the action of the round;

(II) Had duration of the domination; and

(III) Impacted his or her opponent with effective strikes or effective grappling maneuvers, or both, that diminished the abilities of his or her opponent.

(2) A score of a 10-8 round is not the most common score for a round, but it is absolutely essential to the evolution of mixed martial arts and fairness to unarmed combatants that a judge understand and effectively use the score of a 10-8 round.

(3) A score of a 10-8 round does not require an unarmed combatant to dominate or to impact his or her opponent, or both, for the entire round.

(4) A score of a 10-8 round must be used by a judge when the judge sees verifiable results on the part of the unarmed combatant or both unarmed combatants.

(5) If an unarmed combatant has little or no offensive output during the round, the judge should normally award 8 points to the losing unarmed combatant instead of 9 points.

(6) In determining whether to score a round as a 10-8 round, a judge shall evaluate the three factors of impact, dominance and duration. If the judge assesses that two of the three factors are present, the judge shall seriously consider whether to score the round as a 10-8 round. If all three factors are present, the judge shall score the round as a 10-8 round.

(d) If one unarmed combatant completely overwhelms his or her opponent in effective striking or grappling, or both, and a stoppage of the bout may have been warranted, the winning unarmed combatant receives 10 points, and the losing unarmed combatant receives 7 points. This result is referred to as a 10-7 round and is subject to the following principles:

(1) For a round to be scored as a 10-7 round, the winning unarmed combatant must have:

(I) Landed multiple blows that diminished the unarmed combatant's opponent or executed grappling maneuvers that placed the unarmed combatant in dominant situations with impact being inflicted that visibly diminished the ability of the unarmed combatant's opponent to compete; and

(II) Overwhelmingly dominated the unarmed combatant's opponent during the entire round and inflicted such significant impact on the unarmed combatant's opponent that, at times, caused the judge to consider that the fight could have been stopped.

(2) A score of a 10-7 round should rarely be given by a judge.

(e) Each judge of a contest or exhibition of mixed martial arts that is being judged shall use the following judging criteria and priority for scoring a round:

(1) The judge shall first assess whether one of the unarmed combatants has an advantage in effective striking or grappling, or both.

(2) If, and only if, effective striking and grappling are even, the judge shall next assess effective aggression to determine the winner of the round. The judge shall not assess or consider effective aggression if effective striking and grappling are not even.

(3) If, and only if, the round is still even after considering the criteria set forth in subparagraphs (1) and (2), the judge shall assess cage or ring control to determine the winner of the round. The judge shall not assess or consider cage or ring control if the criteria set forth in subparagraphs (1) and (2) are not even.

↪ In assessing the effectiveness of striking, grappling or aggressiveness when an unarmed combatant is in the top position or bottom position, the effectiveness of the unarmed combatant must be based upon the impactful or effective result of his or her actions, not merely whether the unarmed combatant is in the top position or bottom position.

(f) No fraction of points may be given.

~~[(d)]~~ *(g) Points for each round must be awarded immediately after the end of the period of unarmed combat in the round.*

2. After the end of the contest or exhibition, the announcer shall pick up the scores of the judges from the Commission's desk.
3. The majority opinion is conclusive and, if there is no majority, the decision is a draw.
4. When the Commission's representative has checked the scores, he or she shall inform the announcer of the decision. The announcer shall inform the audience of the decision over the speaker system.

5. For the purposes of this section:

(a) "Cage or ring control" must be assessed by determining which unarmed combatant is dictating the pace, place and position of the bout.

(b) "Dominance" means:

(1) With respect to striking, when the unarmed combatant forces his or her opponent continually to defend, with no counters or reaction taken when openings present themselves.

(2) With respect to grappling, when an unarmed combatant takes dominant positions in the bout and utilizes those positions to attempt submissions to end the bout or to attack. Merely holding a dominant position must not be a primary factor in assessing dominance, but rather it is what the unarmed combatant does while holding those dominant positions that must be assessed.

(c) "Duration" means the time spent by one unarmed combatant effectively attacking, controlling and impacting his or her opponent, while his or her opponent offers little or no offensive output. A judge shall assess duration by recognizing the relative time in a round when one unarmed combatant takes and maintains full control of the effective offense. Duration may be assessed both standing and grounded.

(d) “Effective aggressiveness” means effectively and aggressively making attempts to finish the bout, with an emphasis on the effectiveness of such attempts. Chasing after an opponent with no effective result or impact must not be factored into a judge’s assessment of effective aggressiveness.

(e) “Effective grappling” means the successful execution of takedowns, submission attempts and reversals and the achievement of advantageous positions that produce immediate or cumulative impact with the potential to contribute to the end of the match, with the immediacy of the impact being weighed more heavily than the cumulateness of the impact.

(f) “Effective striking” means legal blows that have an immediate or cumulative impact with the potential to contribute to the end of the match, with the immediacy of the impact being weighed more heavily than the cumulateness of the impact.

(g) “Impact” assesses whether an unarmed combatant impacts his or her opponent significantly in the round even if the unarmed combatant may not have dominated the action in the round. It is assessed by observing visible evidence such as swelling or lacerations. It is also assessed when an unarmed combatant’s actions using striking or grappling, or both, lead to a diminishing of his or her opponent’s energy, confidence, abilities and spirit. When an unarmed combatant is impacted by strikes, by lack of control or ability, it can create defining moments in the round and must be assessed with great value.

↪ For the purposes of subsections 14 to 16, inclusive, an opponent shall be deemed to be a “grounded opponent” if at least one of the opponent’s hands, including the palm or fist, is weight-bearing on the floor or if one or more of the opponent’s body parts, other than a hand or sole of a foot, is touching the floor.

by a laboratory approved by the Commission pursuant to subsection 3 of section 25 of ~~this regulation~~ *LCB File No. R062-16*, or a laboratory approved and accredited by the World Anti-Doping Agency identifies the presence of a prohibited substance or its metabolites or markers in the sample or specimen, the unarmed combatant has committed an anti-doping violation and is subject to disciplinary action by the Commission. A violation of this subsection is established by any of the following:

(a) The presence of any quantity of a prohibited substance or its metabolites or markers in the A sample of an unarmed combatant if the unarmed combatant waives analysis of his or her B sample and the B sample is not analyzed. *An unarmed combatant shall be deemed to have waived analysis of his or her B sample if the unarmed combatant fails to provide a written request for such analysis to the Commission within 20 days after the date a complaint alleging an anti-doping violation is served on the unarmed combatant.*

(b) If the B sample of an unarmed combatant is analyzed, the analysis of the B sample confirms the presence of any quantity of the prohibited substance or its metabolites or markers as found in the A sample of the unarmed combatant.

(c) If the B sample of an unarmed combatant is split into two bottles, the analysis of the second bottle confirms the presence of any quantity of the prohibited substance or its metabolites or markers as found in the first bottle.

2. It is the duty of each unarmed combatant to ensure that no prohibited substance enters his or her body, and an unarmed combatant is responsible for the presence of any prohibited substance or its metabolites or markers found to be present in his or her sample or specimen. To establish a violation of this section, it is not necessary to establish that the unarmed combatant intentionally, knowingly or negligently used a prohibited substance or that the unarmed

combatant is otherwise at fault for the presence of the prohibited substance or its metabolites or markers found to be present in his or her sample or specimen.

3. An unarmed combatant does not violate the provisions of this section if:

(a) The quantity of the prohibited substance or its metabolites or markers found to be present in his or her sample or specimen does not exceed the threshold *for the prohibited substance or its metabolites or markers* established in the Prohibited List ~~for the prohibited substance or its metabolites or markers.~~ *or the Technical Documents published by the World Anti-Doping Agency, including, without limitation, the Decision Limits for the Confirmatory Quantification of Threshold Substances.*

(b) The special criteria in the Prohibited List for the evaluation of a prohibited substance that can be produced endogenously indicate that the presence of the prohibited substance or its metabolites or markers found to be present in the sample or specimen of the unarmed combatant is not the result of his or her use of a prohibited substance.

4. Except as otherwise provided in sections 33 to 36, inclusive, of ~~this regulation.~~ *LCB File No. R062-16*, an unarmed combatant who violates any provision of this section:

(a) Is ineligible to engage in unarmed combat in this State for a period of at least 9 months but not more than 24 months, as determined by the Commission.

(b) Will be fined by the Commission in an amount equal to at least 15 percent but not more than 30 percent of his or her purse.

5. As used in this section:

(a) “A sample” means the primary sample or specimen used to test for the presence of a prohibited substance.

(b) “B sample” means the sample or specimen used to confirm or invalidate the presence of a prohibited substance in the A sample.

2. An aggravating circumstance exists when the conditions, events or facts accompanying an anti-doping violation increase the culpability of the person who committed the anti-doping violation. Aggravating circumstances include, without limitation:

(a) The person has committed more than one anti-doping violation at or about the same time, including, without limitation, the use or possession of multiple prohibited substances or prohibited methods.

(b) The person who committed the anti-doping violation violated a provision of this chapter or chapter 467 of NRS, other than an anti-doping violation, at or about the same time as he or she committed the anti-doping violation.

4. A promoter may take a drug testing credit against the license fee for a contest or exhibition only in an amount approved by the Commission pursuant to this section.

5. *The burden is on the promoter to prove, to the satisfaction of the Commission, the legitimacy and accuracy of any drug testing credit claimed. If the Commission finds that a promoter has failed to prove the legitimacy and accuracy of any drug testing credit claimed to the satisfaction of the Commission, including, without limitation, failure to timely submit all information required pursuant to this section, the Commission shall notify the promoter, in writing, of its finding and demand reimbursement of the appropriate amount of the drug testing credit from the promoter. Sec. 66. Section 44 of LCB File No. R062-16 is hereby amended to read as follows:

- (1) The actual cost to collect a sample or specimen.
- (2) The actual cost to test the sample or specimen.
- (3) Any other costs deemed by the Commission to be reasonably necessary to administer ~~[an effective]~~ *the promoter's* drug testing program ~~[.]~~ *effectively.*

(b) Does not include the following costs:

- (2) Any costs paid by the promoter for educational materials or programs.
- (3) Any costs paid to a person that is not a sanctioned drug testing organization.

 - (1) To the Commission or to a sanctioned drug testing organization;

(2) To perform a drug test on an unarmed combatant in relation to a contest or exhibition that was held, or scheduled to be held, in this State; and

(3) To perform a drug test on a sample or specimen taken not earlier than ~~90~~ 60 days before the applicable contest or exhibition and not later than 6 hours after the conclusion of the program of unarmed combat in which the unarmed combatant competed.

(b) The number of sample or specimen collection events and the number and type of tests for each unarmed combatant must be deemed reasonable by the Chair ~~[of the Commission]~~ or the Executive Director. Upon the request of the Chair or the Executive Director, a promoter shall provide such information as the Chair or Executive Director deems necessary to establish that the number of sample or specimen collection events and the number and type of tests for each unarmed combatant are reasonable.

(c) The laboratory testing the sample or specimen must test the sample or specimen in a timely manner, as determined by the ~~[Commission.]~~ *Executive Director, which must not, in any circumstance, exceed 21 days.*

(d) The result of each drug test on an unarmed combatant must:

4. Upon the approval of the Commission, a promoter may calculate the amount of the drug testing credit to which the promoter is entitled by aggregating the amount paid by the promoter to administer a drug testing program for multiple contests or exhibitions.

5. The amount of the drug testing credit to which a promoter is entitled for a contest or exhibition must not exceed the amount of the license fee for that contest or exhibition. Any amount of the drug testing credit for a contest or exhibition that exceeds the amount of the license fee for that contest or exhibition is forfeited and may not be applied to the license fee for another contest or exhibition, unless the Commission authorizes a promoter to apply the excess amount of the drug testing credit to the license fee for another contest or exhibition.

6. The promoter may only claim a drug testing credit for an unarmed combatant who is under contract with the promoter and who has been drug tested under the promoter's drug testing program.

7. The promoter may claim a drug testing credit for a qualifying cost even if the result of the applicable drug test is not known at the time the promoter submits the report required pursuant to subsection 1 of NRS 467.109.

8. If a test of a sample or specimen of an unarmed combatant identifies the presence of a prohibited substance or its metabolites or markers, the Commission may seek reimbursement from the unarmed combatant for the amount of any drug testing credit claimed by a promoter for the cost of the drug test as part of any disciplinary action the Commission brings against the unarmed combatant relating to the result of the drug test. Such reimbursement shall be

deemed to be a return of a license fee and must be accounted for as provided under subsection 2 of NRS 467.107.

9. A promoter may not claim a drug testing credit for the cost of a drug test if:

(a) The result of the drug test renders an unarmed combatant ineligible from participating in the relevant contest or exhibition; or

(b) The unarmed combatant upon whom the test is performed fails to participate in the relevant contest or exhibition for any reason other than something outside the control of the unarmed combatant for which the unarmed combatant is not at fault.
